## PROFESSIONAL SUMMARY

---

Emerging Backend Developer with hands-on experience in MERN stack development. Proficient in building RESTful APIs using Node.js and Express.js, with a solid foundation in structured database design. Skilled in creating responsive user interfaces with React. Quick learner who has fixed bugs and added new features to existing projects. Passionate about writing clean, documented code and eager to grow in a challenging development role.

## PROFESSIONAL EXPERIENCE

---

**Softvision Solution** | MERN Stack Developer

04/2024 - currently working

- Developed and maintained RESTful APIs using Node.js and Express.js
- Implemented database models and relationships using Sequelize ORM with MySQL.
- Collaborated with senior developers to optimize database queries and improve API performance.
- Assisted in implementing user authentication and authorization systems.

## EDUCATION

---

**DAV PG College**

2019 - 2022

*Bachelors of Computer Application*

*Muzaffarnagar, India*

**SD College of Management Studies**

2022 - 2024

*Masters of Computer Application*

*Muzaffarnagar, India*

## TECHNICAL SKILLS

---

**Frontend:** HTML, CSS, JS, Bootstrap, React.js

**Backend:** Node.js, Express.js, Sequelize ORM

**Databases:** MySQL, SQL Server, MongoDB

**Technologies/Frameworks:** Linux, Asp.NET, Stored Procedures, MVC

## PROJECTS

---

**Bug Tracking System** 🔗 | [AspNET, SQL, Stored Procedures, Bootstrap, Javascript](#)

- Developed a backend system for comprehensive issue management with user authentication and access control
- Implemented database operations using stored procedures for optimized performance
- Reporting and Metrics

**Hospital Management System** 🔗 | [Node.js, Express.js, MySQL, Sequelize ORM,](#)

- Developed a comprehensive backend system for a hospital website using Node.js and Express.js
- Created RESTful API endpoints for user authentication, appointment booking, patient portal, and medical record access
- Collaborating with the frontend team to ensure seamless integration of backend services

**Beacon Advertising System** 🔗 | [Node.js, Express.js, MySQL, Sequelize ORM](#)

- Developed RESTful APIs for managing beacon data and user interactions.
- Optimized MySQL queries for faster data retrieval.
- Implemented real-time analytics to monitor beacon engagement.

## COURSEWORK / SKILLS

---

- |                       |                                     |                                |                      |
|-----------------------|-------------------------------------|--------------------------------|----------------------|
| • Backend development | • Network Security                  | • OOPS Concept                 | • Cyber Security     |
| • Operating Systems   | • Database Management System (DBMS) | • Data Structures & Algorithms | • RESTful API Design |
